The information in this handbook is NOT A CONTRACT with students and is subject to change at any time without notice. Students will be notified of new policies or changes to present specific nursing policy and procedures via e-mail by the Nursing Program Director. Questions regarding updates may be directed to the Nursing Program Director. If any information in this handbook conflicts with the State or Federal Statute, Rules, or Regulations, the State or Federal Statutes, Rules, or Regulations will control.

I. About the Nursing Program

This handbook was developed to provide faculty and students in the Nursing Program with information and answers to questions concerning the Nursing Program at Bryant & Stratton College. Included in this handbook:

- a. Program-specific information
- b. Academic policies and procedures relating to the Nursing Program

Students who deviate from the requirements and obligations set forth in this Handbook and in the Official Catalog are subject to appropriate action including suspension or dismissal from the College and release from the Nursing Program.

Approval

The Nursing Program is approved by the **Ohio Board of Nursing, the Wisconsin Board of Nursing, and the Virginia Board of Nursing.**

College Mission Statement

Bryant & Stratton College is a career college delivering outcomes-based education and training through a flexible, contemporary curriculum in a personalized environment.

College Vision Statement

Bryant & Stratton College will be recognized as a premier college providing workplace solutions through education, training, and lifelong learning.

Nursing Program Mission Statement

The mission of the Bryant & Stratton College Nursing Program is to provide quality nursing education and to facilitate the provision of exceptional health care in the region. The Nursing Program emphasizes classroom, laboratory, and clinical experiences that prepare students for both the world of work and for life-long learning. Learning strategies that incorporate modern technology are seen as integral components of the delivery methods.

Nursing Program Goals

- a. Prepare Associate of Applied Science in Nursing graduates to function in professional registered nursing roles.
- b. Provide a foundation of learning which promotes integration of clinical decision making processes into the provision of nursing care for meeting the health/illness needs of patients across the lifespan.

Nursing Program Philosophy

The Nursing Program subscribes to and functions within the mission of Bryant & Stratton College to deliver outcomes-based nursing education and training through a flexible contemporary curriculum in a personalized environment with emphases on authentic and experiential education. In addition, the following beliefs are strongly held:

Society is a system that provides the framework for interactions to address individuals' needs and goals. The individual is an integral part of society, a member of a family, and a member of a community. Society's structure and diverse cultures influence an individual's behavior. Society includes all physical, psychological, cultural, and spiritual conditions affecting individuals and families. Unique responses by the individual or family to constant interaction with the environment result in varying degrees of health.

People are biopsychosocial beings who grow, develop, and adapt throughout the lifespan. The faculty of the Bryant & Stratton College Nursing Program believes that all people, as members of the global society, are endowed with intellects and capabilities which direct them toward uniqueness, autonomy, and self-fulfillment. People have rights, privileges, and responsibilities as members of a family, a community, and the global society. Individuals are affected by urban and rural settings; economics; and cultural, ethnic, spiritual and religious influences.

Health is a dynamic state which fluctuates within a wellness-illness continuum with the individual's optimal level wellness as the goal. The Bryant & Stratton College Nursing Program addresses wellness and acute and chronic health needs throughout the lifespan.

Nursing is an essential health care profession that focuses on the art and science of caring. It is designed to assist individuals and groups with promoting, maintaining, and restoring health to the optimum level attainable. Nursing is a dynamic interactive process that is concerned with the individual throughout the lifespan. Nursing respects human dignity, individual differences, and the patient's self-determination.

Nursing Practice utilizes the nursing process, a systematic decision-making method which includes assessment and analysis of a database; identification of needs; selection of appropriate nursing diagnoses; goal-setting with patients; and planning, implementing, and evaluating those goals. This process assists individuals, families, and members of the community in the promotion, maintenance, and restoration of health.

Nursing Education is the process of the accumulation of dynamic experiences by which students learn through a sequence of planned and guided activities. The optimal learning environment for nursing education is one that is conducive to the development of self-assurance and increasing self-direction. To this end, major concepts are revisited in greater complexity throughout the curriculum. The process of nursing education is based upon close interaction and mutual respect between the student and the teacher. Nursing education is an active teaching/learning process that progresses from comprehension to application to analysis and synthesis of theoretical concepts. The faculty of Bryant & Stratton College's Nursing Program utilizes current findings of health-related research that contribute to the advancement of nursing care in class theory presentations.

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

Although certain content and learning experiences are required, supplemental and individualized learning experiences are provided as needed. In order to assist students to attain the necessary competencies, the faculty selects a variety of clinical environments.

Organizing Framework

The Bryant & Stratton College Nursing Program framework consists of five elements:

- a. Nursing Process
- b. Communication/Collaboration
- c. Professional Behaviors
- d. Nursing Practice
- e. Lifelong Learning

This framework provides direction for the selection and sequencing of learning experiences to achieve program outcomes.

Nursing process is the scientific method used by professional nurses to assess, diagnose, plan, implement and evaluate nursing care in a systematic manner. The nursing process can be utilized with all patients and their families throughout the life cycle in any nursing care setting. The nursing process is an exercise in critical thinking and communication which guides the nurse in the delivery of nursing care. Critical thinking is the ability to carefully reason, formulate evidence-based conclusions, and develop appropriate strategies for application to a particular situation relevant to the practice of nursing. Critical thinking is important in the nursing process as the nurse must continually analyze and interpret data, discriminate between possible choices, and evaluate outcomes.

Communication is the means of sending and receiving messages through symbols, words, signs and gestures. A student brings to the program communication skills learned through life experiences and prior formal education. These are the foundations upon which theory and application necessary for therapeutic nurse/patient interactions and relationships are built. Effectiveness in the nurse/patient relationship is dependent upon the ability to collaborate with nurses and other health care professionals.

Professional Behaviors are comprised of the student's ability to exercise good judgment; the prompt quality completion of all responsibilities related to the nursing care of patients; and the development of mature, sensitive, and effective relationships with patients from diverse social, cultural, and intellectual backgrounds. Students must be able to tolerate physically and mentally taxing workloads and function effectively under stress. They must be able to adapt to changing environments, display flexibility, and learn to function in rapidly changing clinical patient care situations. Students must possess awareness of ethical actions related to the well being of others and the patient service role of the registered nurses.

Nursing Practice

As a **provider of care**, the Associate Degree nurse utilizes critical thinking, clinical competence, and a commitment to the value of caring in order to maintain or restore patients to their optimum state of health/wellness or support death with dignity. In order to assume the role of **manager of care**, the Associate Degree nursing graduate utilizes collaboration, organization, delegation, accountability, advocacy, and respect to provide and coordinate care for a group of patients who have health care needs.

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

As a **member of the discipline of nursing**, the Associate Degree nursing graduate demonstrates a commitment to professional growth, life-long responsibility for upholding high standards of practice within the ethical and legal framework of nursing.

Lifelong Learning is the process of acquiring knowledge or skills throughout life via education, training, work, and general life experiences. Today's world dictates that all professions keep up-to-date with the changing information, technology, and skills necessary to perform job responsibilities with confidence and competence. Graduates will be confronted with rapidly changing knowledge and skill demands. In order to be successful, nursing graduates must have the desire and ability to continue to learn throughout their career.

Nursing Program Student Learning Outcomes

Graduates from the associate degree Nursing Program will be able to:

- a. Employ the Nursing Process to implement comprehensive, culturally effective care.
- b. Demonstrate clinical competence in performance of nursing skills to provide safe nursing care.
- c. Apply evidence-based information to support clinical decision-making.
- d. Collaborate, communicate, coordinate, and consult with other healthcare team members, the patient, and significant support person(s) in assisting the patient to achieve outcomes.
- e. Practice within the ethical, legal, and regulatory frameworks of nursing, standards of professional nursing practice, and employing agencies' standards of care assuming they have no past conduct or convictions which prevent such practice.
- f. Utilize appropriate current technology and resources to locate and evaluate information needed to accomplish a goal, and then communicate findings in visual, written and/or oral formats. *
- g. Transfer knowledge, skills and behaviors acquired through formal and informal learning and life experiences to new situations. *
- h. Employ strategies for reflection on learning and practice in order to adjust learning processes for continual improvement. *
- i. Follow established methods of inquiry and mathematical reasoning to form conclusions and make decisions. *
- j. Participate in social, learning, and professional communities for personal and career growth. *

* Institutional Outcomes

Nursing Program Governance

The Nursing Program consists of the nursing instructional personnel (faculty and nursing clinical support personnel) and the Nursing Program Director. Program instructors and students have a voice in maintaining a contemporary and outcomes-based curriculum (Policy 042 Cur) to this end; students provide feedback through three of four standing committees:

- a. Curriculum Implementation Committee
- b. Resource Committee
- c. Program Feedback Committee

The fourth standing committee is the Admission and Progression Committee. Due to the confidential nature of the information processed in this committee, student participation is prohibited.

II. Nursing Program Entry and Non-Academic Requirements

Entry Requirements

In addition to the admission policies of Bryant & Stratton College, an applicant to the Nursing Program must meet the following requirements:

- a. Provide satisfactory evidence of a high school diploma or GED.
- b. Place into college-level English and Math
- c. Achieve a minimum score no lower than the **40th national percentile** on the Test of Essential Academic Skills (TEAS)
- d. Pre-college level students who graduate from the College and return for a nursing degree will be considered for entry into the Nursing Program as long as they meet the criteria above.

Health Requirements for the Nursing Program

In order to enroll in and attend clinical courses which begin in the second semester, documentation of the following requirements must be provided:

- a. Health history and examination by a physician, nurse practitioner, or physician assistant, completed within one year from the start date of the first clinical course. Reasonable accommodations may be provided for students who request such accommodations through Bryant & Stratton College's accommodation procedures.
- b. Proof of vaccination or lab report of titer **as required by clinical agency:**
 - Measles (Rubeola): two doses of a live measles vaccine given after the first birthday or evidence of measles immunity. A blood titer is required to prove immunity.
 - German measles (Rubella): Immunization for Rubella or a Rubella titer.
 - Tetanus/diphtheria (Td): Tetanus/diphtheria booster within the last ten years.
 - Poliomyelitis: Both primary and booster vaccinations.
 - Hepatitis B Vaccine: Documentation of three immunizations or start of immunization series or a student may sign a Release of Responsibility form or provide a titer showing immunity.
 - Varicella: Either proof of vaccination, disease (year of exposure required), or a blood titer showing immunity.
- c. Results of Tuberculin (TB) Skin Test within past year and every year thereafter (chest x-ray and physician documentation of freedom from TB are required if skin test results are positive). Results must be valid through the end of the clinical semester.
- d. Evidence of the American Heart Association Health Care Provider CPR (cardiopulmonary resuscitation) certification valid through the end of the clinical semester.
- e. Current health care insurance coverage. (Ohio only)
- f. If it is required by a clinical facility, the student must complete a drug screening test or any additional tests required.

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

On an ongoing basis throughout the Nursing Program, students must meet these additional requirements:

- a. Annual documentation of freedom from tuberculosis
- b. Negative drug screen at any time a screen is required. Any student who tests positive on a drug screen may be dismissed from the Nursing Program and/or clinical classes.
- c. Continued certification in CPR

It is the student's responsibility to ensure that all documentation meets the above requirements and remains current throughout their program. In the event that documentation expires, students will be banned from clinical classes until such time as the updated documentation is submitted. Failure to provide updated documentation may result in failure of the clinical class.

In addition, in order to participate in a clinical program at an outside clinical facility, students must meet the specific eligibility requirements of the facility including passing a medical examination acceptable to facility prior to their participation in the clinical program at least once a year. If a student is not accepted to a facility because of a medical condition, the student will not be able to successfully complete the Nursing program because clinical participation is required to complete the program.

Background Record Check Requirements

As future nurses, there may be important ethical and professional considerations of which the nursing student should be aware. Criminal convictions and a record of other conduct may prevent the nursing student/graduate from being licensed and may preclude the nursing graduate from obtaining gainful employment as a nurse. Even after obtaining his or her license, the nursing graduate may have that license suspended or revoked for such convictions or conduct. It is therefore very important that the nursing graduate conduct him or herself professionally and ethically as a law-abiding citizen.

Also, in order to successfully complete the Nursing program, students must participate in clinical programs at outside clinical agencies at varied times to provide patient care. These facilities have policies regarding which students may be accepted. **For this reason, Bryant & Stratton College cannot warranty that a student with a criminal record or a record of certain actions, mental illness, physical illness, or chemical dependencies will be accepted by a clinical facility for placement. If the student is not accepted, the student will not be able to successfully complete the Nursing program.**

In addition, even if a student does successfully complete the Nursing program, if that student has a record of certain crimes or conduct, as discussed below, Bryant & Stratton College cannot warranty that the relevant state Nursing Board will permit the student to sit for examination or to be licensed, certified, or registered or to be employed in the nursing field after graduation.

Students who commit an offense after admission which bars participation in the clinical site may be released from the Nursing program or dismissed from Bryant & Stratton College.

OHIO

Ohio Criminal Background Check Requirements

The Ohio Board of Nursing requires all students who enter a pre-licensure program after June 1, 2003 to submit their fingerprints to the state Bureau of Criminal Identification and Investigation (BCII) and the Federal Bureau of Investigation (FBI) six to nine months prior to completing their nursing education. Students who wish to seek licensure in other states may be subject to similar requirements in those states.

Students are also required to disclose the following matters including but not limited to: any and all criminal convictions and certain past actions taken in other states or jurisdictions. A criminal background check will be carried out before or during the first semester of the student's enrollment. Students are responsible for completing the background check, if required for the clinical setting. The College will pay for the first background check. **After the initial background check, students are required to notify the Nursing Program Director of all subsequent criminal offenses.**

In addition to the initial background check, students must submit to additional background checks as they expire. **Students are responsible for subsequent fees for background checks.** Also, during some clinical courses, checks requiring fingerprinting are required for admission to clinical faculties.

Absolute Bars to Licensure: Under Ohio law (ORC Ann. § 4723.09), certain convictions, pleas, or judicial findings of guilt for certain crimes may bar an individual from sitting for the licensure examination (National Council of State Board Licensure Examination "NCLEX") in Ohio after graduation. Such convictions may preclude them from being licensed in other states as well. These include:

- Aggravated murder (ORC Ann. § 2903.01).
- Murder (ORC Ann. § 2903.02).
- Voluntary Manslaughter (ORC Ann. § 2903.03).
- Felonious Assault (ORC Ann. § 2903.11).
- Kidnapping (ORC Ann. § 2905.01).
- Rape (ORC Ann. § 2907.02).
- Sexual Battery (ORC Ann. § 2907.03).
- Gross Sexual Imposition (ORC Ann. § 2907.05).
- Aggravated Robbery (ORC Ann. § 2911.01).
- Aggravated Burglary (ORC Ann. § 2911.11).
- Aggravated Arson (ORC Ann. § 2909.02).
- Substantially similar crime in another state.

Discretionary Bars to Licensure: Aside from the above-listed absolute bars to licensure, the Ohio Board of Nursing *may* revoke a license or refuse to grant a license for any felony, any drug-related misdemeanor, any misdemeanor involving gross immorality or moral turpitude, or any misdemeanor occurring in the course of practice. Applicants should refer to ORC. Ann. § 4723.28 for a complete list of all of the crimes and conduct which may bar licensure. This list is available upon request.

There is no statute or rule describing which crimes involve gross immorality or moral turpitude. Rather, the Board reviews each case individually based on the underlying acts and circumstances

involved, as well as by referring to existing case law. **The Board will not issue a decision (or provide a written or verbal opinion) regarding the effect of a person's criminal history on his or her licensure application before the Board receives an application and all relevant information is reviewed. This means that the Board cannot inform a nursing student with a criminal history before he or she graduates whether he or she will receive a nursing license or have discipline imposed on a license granted to him or her.**

Before making a determination on a licensing application, the Board reviews information including but not limited to court records, police reports, witness statements and any written explanation provided by the applicant. The Board may consider whether the applicant has made restitution and/or has been rehabilitated. However, the Board's primary mission is protection of the public, so the Board must determine an applicant's risk to the public as a licensed nurse.

For information concerning the Ohio Board of Nursing licensure requirements, see Web site www.state.oh.us/nur .

Bar to Employment in Certain Settings

Even if an individual with a conviction is able to become licensed by the Board of Nursing, there are certain offenses which will disqualify him or her from working in certain settings, such as elder or pediatric care. Ohio law bars Individuals with these "disqualifying offenses" from working in a home health agency providing direct care to an older adult or serving in a position that involves the care, custody, or control of a child. These offenses include those listed above, which are absolute bars to licensure and several more including numerous other crimes, debarment or suspension from federal contracts, being included in the Ohio Department of Developmental Disabilities' Registry of Registry of employees guilty of abuse, neglect or misappropriation, and inclusion in Laura's Law inmate database. These offenses are listed in ORC Ann. § 3701.881 and OAC Ann. § 3701-60-06 and is available upon request.

Any nursing student with any sort of conviction or other record of an offense should review these provisions to determine whether he or she may be barred from employment in facilities or with employers that serve older adults children.

WISCONSIN

Wisconsin Criminal Background Check Requirements

Caregiver Background checks are required for all persons working or training in facilities that provide care for others or have access to people who receive care. See Wis. Stat. § 50.065. Nursing students fall into this category. Additionally, students must meet the requirements of the individual clinical facilities with which we work in order to progress through the Nursing Program.

Students will be asked to complete the Wisconsin Background Information Disclosure (BID) form (HFS-64) in the first semester of the students' enrollment. The College will pay for the initial background check. If a student has lived outside the State of Wisconsin within the past three years, additional state and/or federal background checks may be required. Falsified or missing information on the BID is grounds for dismissal from the Nursing Program. Bryant & Stratton Nursing students must

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

comply with State and Federal laws as well as the requirements of the clinical facilities with which we work.

A complete background check as prescribed under Wisconsin law includes:

- The completed Background Information Disclosure (BID);
- An electronic status check of professional licenses and credentials through the Department of Regulation and Licensing;
- An electronic criminal history search from the Department of Justice; and
- An electronic review of records kept by the Department of Health and Family Services for any substantiated findings of abuse and/or neglect and license restrictions or denials.

Based on the information obtained, additional research may include an out-of-state criminal history search, tribal courts criminal history search, a check of relevant military records, and a check of county or other local records. If a criminal background is verified, this could prevent a student from completing clinical and course requirements and affect their eligibility to take the NCLEX-RN exam for licensure. We are obligated to release all background information concerning any student to any clinical facility where class is taken and our facilities as well as the State Board of Nursing have the right to reject any students who fail to meet their standards.

After the initial background check, students are required to notify the Nursing Program Director of all subsequent criminal offenses. Also, during some clinical courses, checks requiring fingerprinting are required for admission to clinical facilities.

Bars to Licensure: In Wisconsin *any* criminal arrest or conviction could bar an individual from sitting for the licensure examination (NCLEX) after graduation. Such arrests and convictions are subject to Wisconsin Board of Nursing review on a case-by-case basis and Bryant & Stratton College cannot warranty that the Board will permit an individual with such convictions to sit for the examination.

Absolute Bars to Clinical Participation and Employment in the Nursing Field: Clinical participation is necessary for students to successfully complete the Nursing Program. Unless an individual has been found to have been rehabilitated under procedures of the Wisconsin Department of Health Services or a designated tribal authority, a clinical site will refuse admission of a student and a provider will refuse to employ as a caregiver an individual if the background check reveals that the individual has been convicted of a “serious crime” as defined in Wis. Stat. § 50.065 or has been found to have carried out certain offenses including the abuse and neglect of a child or patient (**a list of these crimes and offenses is attached to the disclosures provided to students during the enrollment process and is also available upon request**).

Discretionary Bar to Clinical Participation, Employment in the Nursing Field, and Licensure

A clinical site *may* refuse admission of a student and a provider *may* refuse to employ an individual as a caregiver if the background check reveals a criminal conviction that is not a “serious crime” but is substantially related to the care of its patients.

Also, an applicant to either a clinical site or for employment will be required to submit additional information and **may** be refused admission by a clinical site or employment as a caregiver if he or she:

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

- Within the last 5 years was convicted of an offense listed in Wis. Stat. § 50.065(2)(bb) (a list of these crimes is attached to the disclosures provided to students during the enrollment process and is also available upon request);
- Served in the armed services and was discharged other than honorably.

Any student with any sort of conviction or other record of an offense should review the list of crimes and offenses to determine whether he or she may be barred from clinical participation or employment in the nursing field.

If a clinical facility will not accept a student based on the criminal background check, the student will not be able to successfully complete the Nursing Program. If a student determines that the background report is incorrect, or wishes to take legal action regarding past criminal activity, he or she must do so without the help of the college, and must obtain and pay for any legal or other assistance required. A student is ineligible for placement at a clinical facility until a corrected or revised background check is available.

VIRGINIA

Virginia Criminal Background Check Requirements

Students are required to submit a background check to admissions that includes the following: Level I background check, 7-Year Criminal History, Nationwide Sexual Offender Search, Social Security Verification, Residence History, OIG List of Excluded Individuals/Entities, GSA List of Parties

Excluded from Federal Programs, U. S. Treasury, Office of Foreign Assets Control (OFAC), List of Specially Designated Nationals (SDN), an Applicable State Exclusion plus employment verifications for those 21 years of age and over for 7 years.

Students are required to disclose any and all criminal convictions, certain past actions taken in other states or jurisdictions, and any mental or physical illnesses or chemical dependencies. A criminal background check will be carried out during the first semester of the student's enrollment. Students are responsible for completing the background check, if required for the clinical setting. The College will pay for the first background check. **After the initial background check, students are required to notify the Nursing Program Director of all subsequent criminal offenses.**

In addition to the initial background check, students may be required to submit to additional background checks. Also, during some clinical courses, checks requiring fingerprinting are required for admission to clinical faculties.

According to the Virginia Department of Health and the Virginia Department of Health Professions, each applicant is considered on an individual basis and there are *no* criminal convictions or impairments that are an absolute bar to nursing licensure or nurse aid certification. However, under Virginia law (Va. Code Ann. § 54.1-3007), certain conduct *may* bar an individual from sitting for the licensure examination (NCLEX) after graduation.

Discretionary Bars to Licensure, Certification, and Registration: Crimes of Moral Turpitude and Crimes Which Suggest Impairment:

Conviction for *any* felony or for *any* misdemeanor involving moral turpitude may bar the ability to sit for examinations and may bar licensure, certification, or registration. Va. Code Ann. § 54.1-3007. Crimes involving moral turpitude include those involving lying, cheating, and stealing.

Also, misdemeanor convictions which suggest a possible impairment issue, such as driving under the influence (DUI) and illegal drug possession, may be a basis for denial during the licensure or certification appeal process. A list of all activity that may bar licensure, certification or registration will be provided upon request.

Bar to Employment in Certain Settings: Even if a student with a conviction is able to become licensed or certified by the Board of Nursing, there are certain crimes which will disqualify him or her from working in certain settings. Students with a conviction for certain “barrier crimes” are prohibited from employment in nursing facilities, home care organizations, hospice programs, or assisted living facilities. A list of these barrier crimes is available upon request.

Any student with any sort of conviction or other record of an offense should review this list to determine whether he or she may be barred from employment in these facilities.

Drug Use, Illnesses, and Other Conduct

Other conduct that could result in the denial of the ability to sit for the examination, or cause the denial of licensure, nurse aid certification, or registration includes:

1. Fraud and deceit in procuring or attempting to procure nursing license, certificate, or registration;
2. Unprofessional conduct;
3. Willful or repeated violation of state law governing nursing licensure;
4. Use of alcohol or drugs to the extent that such use renders a person unsafe to practice;
5. Any mental or physical illness that renders a person unsafe to practice.

FEDERAL LAW

In addition to state laws, federal law mandates criminal record checks with respect to work in certain facilities or settings that receive federal funding. For example, the 2010 Patient Protection and Affordable Care Act (42 U.S.C. § 1320a-71) requires the Secretary of Health and Human Services to carry out a nationwide program for states to conduct national and statewide criminal background checks for direct patient access employees of nursing facilities and other providers.

Informed Approach

Because a criminal history can have different effects at the educational, licensure, and employment levels, any student with a criminal history is encouraged to contact healthcare facilities and inquire about hiring criteria with respect to criminal convictions.

Inaccurate Representations of Students

Any student who inaccurately completes his or her disclosure form is subject to dismissal from Bryant & Stratton College regardless of the offense committed. Students are subject to sanctions if they knowingly give false information on or knowingly omit information from the background information disclosure form. Students are also subject to sanctions if after submitting a background information disclosure form, subsequently fail to report:

- Any information about a conviction for a crime or other act or offense requested on the background information disclosure form;
- Carrying out other conduct that could result in the denial of the ability to sit for the licensure examination, or bar the applicant from being employed in certain settings as set forth above.

Uniform Requirements

The Nursing Program has an official uniform. Uniforms are expected to be kept clean and in good repair. Substitution of other clothing or uniform types is not permitted. Students must present a professional appearance whenever they are in the skills lab and/or clinical facilities; therefore, uniforms are to be worn to all clinical sites. The required uniform consists of:

- a. Scrub top with the embroidered Bryant & Stratton College logo or official Bryant & Stratton College patch with scrub pants. **It is recommended that all students purchase at least two uniforms.** Students have the option to purchase the matching uniform jacket.
- b. White shoes with closed heels and toes and rubberized soles
- c. White or dark socks
- d. Name badges which will be worn in all clinical settings.
- e. Lab coat which will be worn on clinical units to do preparation prior to clinical experiences. Lab coats may also be worn over the student uniform

Equipment Requirements

For both classroom practice and clinical experiences use, each nursing student is expected to have the following:

- a. Watch with a second hand
- b. Stethoscope
- c. **Pen light**
- d. **Bandage scissors**

Professional Appearance

In order to comply with infection control policies and enhance the comfort of his/her patients, the student must be clean, neat, and in compliance with the Nursing Program and agency dress code when reporting for clinical experiences. Non-compliance with the professional appearance practices may result in dismissal from the clinical setting for the day.

- a. **Jewelry:** Wedding or engagement rings and a maximum of two stud earrings per ear **lobe** are allowed. No dangling earrings, hoops, necklaces, as well as no facial or tongue piercings are

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

allowed to be worn. The student should bring a large safety pin for pinning jewelry to clothing when rings must be taken off for certain clinical areas (i.e. surgery, OB delivery, nursery, etc.).

- b. **Hair:** Hair is to be clean, neat, pulled back and secured so that hair does not come in contact with the patient or the sterile field; men must be shaven or have neatly trimmed beards and/or mustaches.
- c. **Nails:** Nails are to be kept short, clean, and in good repair. Polish should be clear and not chipped. No artificial nails or nail enhancements are permitted (This includes artificial nail tips, appliqués, acrylic gels, and any additional items applied to nail surface).
- d. **Body Art:** Any tattoos or other form of body art should be covered by the uniform.

Transportation to Clinical Sites

The Nursing Program uses a variety of clinical facilities for student learning experiences.

The facilities are located in various areas of the community and require students to provide transportation to and from the facility.

- a. Students are responsible for their transportation to and from health care agencies for clinical experiences.
- b. Under no circumstances are students allowed to transport patients in their private vehicles.

III. Academic Policies and Procedures

Transfer Credit and Proficiency Credit

General Transfer Credit Policy

Bryant & Stratton College accepts credits from other accredited colleges, universities, post-secondary institutions, and American Council on Education (ACE) recommended programs for college credit, if the following criteria are met:

- a. The transfer course content must meet or exceed the educational outcomes of the course in the Bryant & Stratton College curriculum.
- b. Official college transcripts or training program/certification documentation for the transfer courses must be received along with the completed transfer request by the end of the student's first semester of enrollment at Bryant & Stratton College.
- c. The applicant earned a grade of C or better in the course.
- d. The length of time elapsed since the transfer course credit has not rendered the course obsolete as to the utility of the knowledge in the field of study or the application of technology. [See additional information in **Nursing Program** below.]

General Credit by Examination Policy

- a. Credit by examination is a process that employs rigorous assessments that require students to meet all of the established competencies and outcomes for the award of credit for a select group of courses at Bryant & Stratton College.
- b. Prior Learning Assessments (PLAs) are available to all campus-based students for select courses in the degree plan, or liberal arts course series.
- c. It is recommended that PLAs be completed by the end of the first term of enrollment.
- d. Students must earn a grade of 70% or better on any Bryant & Stratton College PLA in order to earn credit for the related course. [See additional information in **Nursing Program** below.]
- e. PLAs may be taken only once in a subject and must be taken before the student enrolls in the related course. [See additional information in **Nursing Program** below.]
- f. Students who receive the grade **W** in a course *may not* complete the related PLA, nor may students complete a PLA while they are enrolled in the related course or after they have failed the related course.
- g. For individuals with experience in the armed forces of the United States, or in the national guard or in a reserve component, refer to the *Official Catalog* for the SOCNAV/SOCAD opportunities for earning transfer credit.

Nursing Program Transfer and Credit by Examination Policy:

Non-clinical nursing and biology courses will transfer into the Nursing Program as long as they meet the requirements in the Bryant & Stratton College transfer policy, stated above, and additionally meet the following conditions:

- The courses must have five year currency
- The grade for the course is a C or better

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

A Licensed Practical Nurse (LPN) who holds a current license to practice as a Licensed Practical/Vocational Nurse in the State in which the campus resides may elect to take a **PLA** to earn college credit for **NURS 100, NURS 103 (Ohio and Milwaukee only) and NURS 215**. Before taking the PLA, a copy of the license must be on file with the Nursing Program Director; its authenticity must be validated through the Board of Nursing.

If a licensed LPN student elects to receive prior learning credit for the aforementioned courses, the student must:

- a. Score Level 2 proficiency on NURS 103 Fundamentals of Nursing and NURS 215 Pharmacology sections of the Assessment Technologies Institutes (ATI) content mastery series competencies.
- b. Pass a comprehensive skills competency assessment after scoring Level 2 proficiency on the ATI Content Mastery Test.

Students have one attempt to pass the PLA. Upon satisfactory completion of each of these competency sections, the student will be granted credit for NURS 100 (1 credit), NURS 101 (5 credits) and NURS 215 (3 credits). Students receive credit for both NURS 100 and NURS 101 if they successfully complete the assessment; no partial credit is granted. Students will be granted credit for NURS 215 if they pass the PLA for NURS 215 but not NURS 103. See catalog for fee structure.

Students who do not pass a nursing PLA in one attempt will not receive college credit for the courses tested and will register for the courses in subsequent semesters.

LPN licensed students, as well as all students in the College, are required to demonstrate proficiency in general education courses, including, but not limited to, English, Math, and Information Literacy regardless of the credentials earned in other college programs.

Process by which Nursing Policies and Procedures are Communicated to Students

Students will be notified of new policies or changes to present specific nursing policy and procedures via e-mail by the Nursing Program Director. These changes will also be included in the catalog during semester revisions.

Course Grading Scale

The grading scale for the nursing courses is not consistent with all other Bryant & Stratton College programs (A=90%-100%; B+=85%-89%; B=80%-84%; C+=75%-79%; C=70%-74%; F=69.9% or less; I=Incomplete; W=Withdrawal). The D+ grade is not used in the nursing program with the exception of all liberal arts courses that are not considered major requirements. Student learning will be evaluated using multiple assessment measures: exams and quizzes, individual and group projects, etc. Refer to the instructor's supplemental syllabus for further explanation of assessment measures for individual courses. Syllabi may be revised as needed throughout the term.

Academic Advisors

- a. Faculty advisors may be assigned to nursing students on an as-needed basis.
- b. The Nursing Program Director and the Nursing Program Coordinator/**Administrator** are available to discuss grades, academic plans or problems, course changes, etc. Students are encouraged to confer with all the resources available as academic problems, conflicts, or concerns arise.

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

- c. All faculty are available to discuss academic plans or problems, course changes etc. for their specific course (s)
- d. The Dean of Instruction and the Dean of Student Services are also available to advise students as issues arise.

ATI-Testing

The Assessment Technologies Institutes (ATI) content mastery series is used in the Nursing Program to assist in the assessment of course and program competencies. All students are required to complete the secured standardized assessment tests in the following content areas: NURS 101/103 Fundamentals in Nursing Practice, NURS 215 Pharmacology, NURS 221/223 Medical/Surgical Nursing II, NURS 201/202 Family Child Nursing, NURS 222 Geriatric & Mental Health Nursing and NURS 230 Nursing Issues, Leadership & Research.

ATI Comprehensive Predictor Test

Readiness to sit for the NCLEX-RN will be assessed in NURS 270 Internship. Students will take the RN Comprehensive Predictor Test. Students must score at the Predicted Probability of Passing the NCLEX-RN at **91-93%** in order to get credit for the test. Because this is a normed test, the percentage of correct answers required to score at 91-93% will change depending on the specific CPT administered. The comprehensive predictor test will be calculated in the final grade. Students have **two** attempts to take and pass the comprehensive predictor test.

Academic Progression through the Nursing Program

Acceptable Achievement in Nursing Courses

Students must achieve a grade of C or better in the theory portion of the class and pass the clinical portion of the class in order to successfully pass clinical courses.

- a. **A student who fails the clinical portion and passes the theory portion will fail the course.**
- b. **A student who passes the clinical portion and achieves less than 70% in the theory portion of the course will fail the course.**
- c. A minimum grade point average (GPA) of 2.0 must be maintained to progress through the nursing courses.

Remediation

To enhance student success mandatory remediation plans will be developed as per the instructor's supplemental syllabus.

Repeat of a Nursing Course

- a. A student who earns a non-passing grade (F) or a withdrawal (W) from a clinical course must repeat the **entire** course and successfully pass the course before proceeding to any other clinical course. The repeat should occur during the next term the course is offered or as determined by the Nursing Program Director.
- b. A student who earns a non-passing grade (F) or a withdrawal (W) from a non-clinical course should repeat and successfully pass the course during the next term the course is offered or as determined by the Nursing Program Director.

Grade Appeal

The instructor for the course is responsible for assigning grades. If there is disparity between the opinions of the instructor and the student regarding an assigned grade, the student may challenge the grade by following the grade appeal procedures as outlined in the *Official Catalog*.

Non-Grade-Related Grievance Process

For matters not related to grade challenges, students should follow the established Bryant & Stratton College Grievance Procedures, found in the *Official Catalog*.

Program Jeopardy Status

A student who earns **one** non-passing grade (F) or a withdrawal (W) from a NURS or BIOL course is placed on program jeopardy status and remains in such status until the student completes the program.

Students who fall below a 2.0 grade point average (GPA) will be placed on program jeopardy status for one semester with the opportunity to get back in good standing.

Program Jeopardy Status is distinct from academic probation as set forth in the College *Official Catalog's* description of the College's satisfactory academic progress policy. A student may be in Program Jeopardy Status in the Nursing Program yet may be maintaining satisfactory academic progress at the College. Such a student will be in jeopardy of being released from the Nursing Program but may not necessarily be on academic probation.

Release from the Nursing Program

Students will be released from the Nursing Program for any one of the following reasons:

- a. Student earns a total of two non-passing grades (F) or withdrawal (W) in any NURS course, whether the non-passing grades are earned in the same course or two different courses and regardless of the semester in which the two non-passing grades are earned;**
- b. Student earns a total of two non-passing grades (F) or withdrawal (W) in any BIOL course, whether the non-passing grades are earned in the same course or two different courses and regardless of the semester in which the two non-passing grades are earned;**
- c. Student falls below the minimum 2.0 (CGPA) and does not get back in good standing in the subsequent semester; or**
- d. Student engages in unethical or unsafe conduct while providing patient care.**

Students who earn the two non-passing grades as described in paragraphs a., b, or d. in one semester will be released from the Nursing Program and will not be provided the benefit of program jeopardy status.

Students must also maintain the quantitative component of the College's satisfactory academic progress toward completion of their studies in order to remain in good academic standing and remain enrolled at the College. The academic standards for the Nursing Program have different levels of performance that, augment and supersede the measuring points and requirements outlined in *the Official Catalog*, and are used to evaluate a student's ability to progress in the Nursing Program.

Re-Entry to the Nursing Program

Students may petition for re-entry to the Nursing Program one time if they have voluntarily withdrawn from the Nursing Program.

Re-entry is considered on a space-available basis. Students must apply for re-entry in writing to the Nursing Program Director prior to the start of the semester. The application letter must include:

- a. The last semester attended
- b. The reason for dismissal or withdrawal
- c. The semester in which the student wishes to return
- d. The course(s) he or she intends to take
- e. Transcripts and grades for any courses taken while out of the Nursing Program
- f. What plans or changes the student has made to ensure retention and success if re-admitted

The request will be reviewed by the Nursing Program Director within 7 days of receipt. The student's prior academic and clinical performance and any other pertinent information will be reviewed. If approval for re-entry to the Nursing Program is granted, the student will resume the Nursing Program at a point of entry determined by the Nursing Program Director on a space available basis. The student will follow the current catalog courses to complete his/her degree.

Students who have left the Nursing Program for non-academic reasons and have been out for less than three terms may be reinstated without testing (as specified below), upon request and on a space available basis.

Nursing students who are out for three or more terms will be required to pass the semester content exam and a skills competency assessment to be eligible for re-entry.

Completion of the Nursing Program

Nursing students must:

- a. Pass all courses with the minimum grade required.
- b. Earn 72 credits for the Associate of Applied Science Degree in Nursing and meet all other applicable Bryant & Stratton College requirements. See the *Official Catalog* for details.
- c. Meet the stated criteria found in this Handbook.
- e. Complete graduation petitions during the final semester of study. Petitions are available in the Academic Office. An administrative graduation fee is assessed for each student and covers the cost of caps and gowns.
- f. Complete the paperwork for the Criminal Background Check during the fifth (5th) semester of the Nursing Program (or earlier if required by clinical agencies) (Ohio only).
- g. Take part in a Graduate Transitional Interview.

Medication Calculation Competency

Safe administration and calculation of medication is an essential component of nursing practice. Medication calculation is a component of the NCLEX-RN examination and is a Joint Commission on Accreditation of Healthcare Organizations (JCAHO) mandated competency. The student must demonstrate the ability to perform medication calculations at a satisfactory level each semester when clinical classes are taken.

Math calculation tests will be administered in nursing courses at various points throughout the Nursing Program. The syllabus for each course will contain the level of satisfactory completion for passing the course.

Supervision of a Student in Clinical

A faculty member, clinical lab personnel, or preceptor will be immediately available to a nursing student during his or her clinical participation at all times to provide guidance and evaluation of student's performance.

Preceptors are used for specialized clinical experiences and are selected according to College policy to meet particular course objectives and enhance the variety of clinical experiences for the student.

Safe Nursing Practice Definition

Safe nursing practice is essential to all clinical courses. Safe nursing practice is defined as the application of scientific principles and nursing theory in performing nursing care. Care is provided in a reasonable and prudent manner providing for the welfare and protecting the well-being of the patient. Safe practices imply that the student can demonstrate awareness of the potential effect of actions and decisions. Such actions and decisions shall not endanger the patient.

Unsafe Practice Procedures

Safe practice is an essential requirement for progression to the next course and will be judged by the **faculty/clinical support personnel**. Documentation of unsafe practices will be formulated by faculty and discussed with and signed by students. Faculty will determine if the student is to be dismissed for the day or the remaining portion of the course. In addition, unsafe practices **may result in an F for the course and** release of the student from the Nursing Program.

Professional Student Conduct

The Nursing Program Director and faculty will implement policies related to student conduct that incorporate the standards for safe nursing care, including but not limited to the following:

- a. A student shall, in a complete, accurate, and timely manner, report and document nursing assessments or observations, the care provided by the student for the patient, and the patient's response to that care.
- b. A student shall, in an accurate and timely manner, report to the appropriate practitioner errors in or deviations from the current valid order.
- c. A student shall not falsify any patient record or any other document prepared or utilized in the course of, or in conjunction with, nursing practice. This includes, but is not limited to, case management documents or reports or time records, reports, and other documents related to billing for nursing services.
- d. A student shall implement measures to promote a safe environment for each patient.
- e. A student shall delineate, establish, and maintain professional boundaries with each patient.
- f. At all times when a student is providing direct nursing care to a patient the student shall:
 - i. Provide privacy during examination or treatment and in the care of personal or bodily needs; and
 - ii. Treat each patient with courtesy, respect, and with full recognition of dignity and individuality.
- g. A student shall practice within the appropriate scope of practice as set forth in the Board of Nursing standards.

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

- h. A student shall use universal blood and body fluid precautions
- i. A student shall not:
 - i. Engage in behavior that causes or may cause physical, verbal, mental, or emotional abuse to a patient;
 - ii. Engage in behavior toward a patient that may reasonably be interpreted as physical, verbal, mental, or emotional abuse.
- j. A student shall not misappropriate a patient's property or:
 - i. Engage in behavior to seek or obtain personal gain at the patient's expense;
 - ii. Engage in behavior that may reasonably be interpreted as behavior to seek or obtain personal gain at the patient's expense;
 - iii. Engage in behavior that constitutes inappropriate involvement in the patient's personal relationships; or
 - iv. Engage in behavior that may reasonably be interpreted as inappropriate involvement in the patient's personal relationships.
 - v. Accept any gifts from patients or patients.

For the purpose of this paragraph, the patient is always presumed incapable of giving free, full, or informed consent to the behaviors by the student set forth in this paragraph.

- k. A student shall not:
 - i. Engage in sexual conduct with a patient;
 - ii. Engage in conduct in the course of practice that may reasonably be interpreted as sexual;
 - iii. Engage in any verbal behavior that is seductive or sexually demeaning to a patient;
 - iv. Engage in verbal behavior that may reasonably be interpreted as seductive, or sexually demeaning to a patient.

For the purpose of this paragraph, the patient is always presumed incapable of giving free, full, or informed consent to sexual activity with the student.

- l. A student shall not, regardless of whether the contact or verbal behavior is consensual, engage with a patient of the student in any of the following:
 - i. Sexual contact
 - ii. Verbal behavior that is sexually demeaning to the patient or may be reasonably interpreted by the patient as sexually demeaning.
- m. A student shall not self-administer or otherwise take into the body any dangerous drug, in any way not in accordance with a legal, valid prescription issued for the student.
- n. A student shall not habitually indulge in the use of controlled substances, other habit-forming drugs, or alcohol or other chemical substances to an extent that impairs ability to practice.
- o. A student shall not have impairment of the ability to practice according to acceptable and prevailing standards of safe nursing care because of habitual or excessive use of drugs, alcohol, or other chemical substances that impair the ability to practice.
- p. A student shall not have impairment of the ability to practice according to acceptable and prevailing standards of safe nursing care because of a physical or mental disability. As required by Federal and State law, appropriate and reasonable accommodations will be made to students with qualifying disabilities if requested according to Bryant & Stratton College procedures set forth in the *Official Catalog*;
- q. A student shall not assault or cause harm to a patient or deprive a patient of the means to summon assistance;
- r. A student shall not obtain or attempt to obtain money or anything of value from a patient;

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

- s. A student shall not have been adjudicated by a probate court of being mentally ill or mentally incompetent, unless restored to competency by the court.
- t. A student shall not aid and abet a person in that person's practice of nursing without a license, practice as a dialysis technician without a certificate issued by the Board, or administration of medications as a medication aide without a certificate issued by the Board.
- u. A student shall not prescribe any drug or device to perform or induce an abortion, or otherwise perform or induce an abortion;
- v. A student shall not assist suicide;
- w. A student shall not submit or cause to be submitted any false, misleading or deceptive statements, information, or document to Bryant & Stratton College, its faculty or preceptors, or to the Board.

Substance Abuse

Bryant & Stratton College requires that nursing students at all times be capable of providing safe and effective patient care. To that end, the College is committed to a substance-free workplace and environment. This means that nursing students must not be impaired by any substances during any part of the Nursing Program, including classroom work, laboratory assignments, and clinical settings in which the nursing students participate. Therefore, any situation where a student's ability or performance is impaired by drugs or alcohol will be dealt with in the following manner:

- a. The campus director or academic manager may warn, suspend, or **dismiss** from school any student for violation of the Code of Conduct as detailed in the *Official Catalog*. Such students will be ineligible to receive any refund of tuition.
- b. The action taken against any student will be based upon the severity of the infraction.
- c. Each case will be handled and determined on an individual basis and will be completely documented and filed in the student's academic file.
- d. All accused students will be afforded the right of challenge the action under the procedures set forth in the *Official Catalog*. However, clinical facilities may, without a hearing, bar the participation of a student who has tested positive in a drug screen or manifested impairment at a clinical facility. Student Conduct hearings at Bryant & Stratton College are bound by the published guidelines in the *Official Catalog*.

Reasons to Suspect Impairment Include, But Are Not Limited To:

- a. Alcohol on the breath or **odor** of alcohol
- b. Flushed face and/or bloodshot eyes
- c. Tremors of the hands
- d. Unsteady gait
- e. Patterned absenteeism
- f. Frequent breaks or disappearance during clinical day
- g. Repeated tardiness
- h. Memory lapses, difficulty concentrating, confusion
- i. Lack of coordination/dexterity
- j. Slurred or incoherent speech
- k. Deterioration of appearance
- l. Dilated or constricted pupils
- m. Anger, hostility, irritability, mood swings, agitation
- n. Presence of drug paraphernalia
- o. Drowsiness and sleepiness

Student Conduct

Students should conduct themselves in a manner consistent with the College's educational mission. College disciplinary proceedings may be instituted against a student charged with conduct that potentially violates either criminal law and/or the Student Code of Conduct. Students should refer to the Official Catalog for a detail description of the Student Code of Conduct and disciplinary hearings.

Professional Licensure Application Procedure

Students successfully completing the Nursing Program are eligible to take the National Council of State Board Licensure Examination (NCLEX-RN).

Applications for the NCLEX-RN licensure examination are distributed and completed in the final semester of the Nursing Program. Nursing faculty will assist the students in this process.

Students must pay their balance before the College will forward appropriate documentation for student to take NCLEX.

Statement of Confidentiality

All information that a student learns about a patient while providing care is private and confidential. This information is not to be shared with anyone except an instructor and those members of the health team directly involved with the care of the patient. The right of privacy is paramount; therefore, confidential information about the patient acquired from any source is to be safeguarded.

- The student shall access patient information only for purposes of patient care or for otherwise fulfilling the student's assigned clinical responsibilities, and shall not disseminate patient information for purposes other than patient care or for otherwise fulfilling the student's assigned clinical responsibilities through social media, texting, emailing or any other form of communication.
- To the maximum extent feasible, identifiable patient health care information shall not be disclosed by a student unless the patient has consented to the disclosure of identifiable patient health care information. A student shall report individually identifiable patient information without written consent in limited circumstances only and in accordance with an authorized law, rule, or other recognized legal authority.
- The student shall not use social media, texting, emailing, or other forms of communication with, or about a patient, for non-health care purposes or for purposes other than fulfilling the student's assigned clinical responsibilities.

With the nurse-patient relationship based on trust, the patient's welfare and reputation can be jeopardized by inappropriate disclosure and the nurse-patient relationship destroyed. Students are expected without exception to observe the **patient's/patients'** right to privacy. Serious consequences such as release from the Nursing Program may result if the student fails to maintain this privacy. Students are reminded that confidentiality has legal and ethical implications and that an inappropriate break of confidentiality may expose the student to liability.

Accidental Exposure

Bryant & Stratton College nursing students participate in clinical rotations in multiple facilities. Therefore, in the event of accidental exposure injuries, the faculty and students will follow the policy of the facility where the incident occurs. It shall be the responsibility of the faculty in each facility to identify the location of institutional policies and Material Safety Data Manuals and to identify the

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

appropriate contact person in each facility before students begin clinical experiences. Bryant & Stratton College/Clinical Facility assumes no responsibility for the cost of testing in accidental exposure injury.

Student Health and Counseling Services

Bryant & Stratton College does not provide Student Health Services or Counseling Services. The office of Student Services keeps a reference list of community resources that is available for student use.

Students who are in need of these services may meet with the Dean of Student Services to review the community resource guide for referrals.

Bryant & Stratton College provides career counseling for all current students and graduates of all Bryant & Stratton College programs. Students needing career counseling should contact the Career Services Department on campus to schedule an appointment. Bryant & Stratton College does not provide student health insurance.

For an emergency health need (physical and/or mental) during scheduled class time on the school premises or in a clinical facility, the instructor or his/her designee will contact the Emergency Medical System (911) to summon emergency assistance for the student. The student is responsible for payment of emergency services and any treatment incurred.

For an urgent health need (physical and/or mental) during class time on the school premises or in a clinical facility, the instructor or his/her designee will assist the student to access the community resource reference in the Student Services office. The student is responsible for making and keeping any appointments, as well as payment for services.

Fees and Expenses

The tuition charges and associated fees for the Nursing Program are established for the system of Bryant & Stratton Colleges and are consistent for programs at all campuses conferring the degree. The tuition and fees are published in the *Official Catalog*.

Student Acknowledgement of Handbook

Students must sign the form on the following page acknowledging that they read the Handbook.

Completed forms must be submitted to the Nursing Program Director by the third week of the semester.

Bryant & Stratton College
A.D.N. Handbook
Fall 2014 (Continuing Students)

I, _____, acknowledge that I have entered the College website and read the Nursing Program Student Handbook for **Fall** 2014 and the current Bryant & Stratton College Catalog.

I understand that it is my responsibility to know the contents of the Student Handbook and the Catalog and that it is my responsibility to refer to these publications as the need arises. I also understand that it is my obligation to periodically review the Student Handbook and the Catalog and to look for changes. I also understand that it is my obligation to view updates to the Student Handbook and Catalog upon notice of amendments.

I agree to be bound by the requirements, standards, policies, and procedures set out in the Student Handbook and the Catalog and any amendments to them.

I understand that I will be held accountable for deviation from the requirements and obligations set forth in the Student Handbook and Catalog and that such deviation may result in disciplinary action taken against me including suspension, release from the Nursing Program, or dismissal from Bryant & Stratton College.

I understand that neither the Nursing Program Student Handbook nor the Catalog is a contract or an offer of a contract and that I should not consider them as such. I also understand that the Student Handbook and the Catalog are subject to change at any time without notice. Questions regarding updates may be directed to the Nursing Program Director. If any information in the Student Handbook or Catalog conflicts with the State or Federal Statute, Rules, or Regulations, the State or Federal Statutes, Rules, or Regulations will control.
