Male	106	10	6	13	3	14		16	16		15	12	1

Individual campuses where no students received athletically related aid are not shown in this document. Their students, however, are included in the overall College figures for tables representing both athletes and non-athletes.

Students are considered graduates if they earned a degree within 150 percent of the normal time for completion or graduation from their program for cohorts where the end of this period occurred in the 12-month period ending August 31, 2022. Cohorts are based on the rules for inclusion into the IPEDS Fall Enrollment survey. Also, students may be excluded from the cohort after they are included for reasons of death; permanent disability; and other service in the Armed Forces, an official church mission, or a Federal Government foreign aid service (this allowance affected 2 students overall and 0 student-athletes who would have otherwise been included).

Empty cells in the graduation rate tables represent subgroups with no cohort members. Cells with asterisks represent subgroups that are too small to disclose or report with confidence and confidentiality.
