Delivering the Results
Outcomes are what training is all about, and the Professional Skills Center ensures your training dollars are well-spent by helping you attain employment as a medical transcriptionist. Best of all, our help does not end when the training is over:

- Immediate post-training assessments explain what you have learned and provide personal action-plans
- Follow-up post-assessments help you remember key concepts to sustain your peak productivity
- Post training tip-sheets provide easy-to-reference terms and concepts

Providing Hands-on Training
As a division of Bryant & Stratton College, the Professional Skills Center has a wide variety of healthcare-related courses and training solutions. We use a practical, hands-on approach, combining real-life examples and the latest technology to make learning easier. Offered through open enrollment the Professional Skills Center’s courses provide you with convenient advantages:

- Certification exam preparation courses that help you obtain needed professional credentials
- Continuing education courses to help you fulfill your ongoing professional CE requirements
- A variety of programs that include classroom and online training
- A comfortable learning environment
- The ability to apply your skills as a medical transcriptionist

Value-Added Features:
In addition to superior training, the Professional Skills Center also offers these value-added features:

- Class re-take guarantee if you do not pass the certification test
- Current student discounts off your first continuing education course taken after completion of any PSC certification prep program
- Current student discounts off any online professional development course taken within 12 months of a PSC program
- Readiness exams to ensure thorough preparation for certification or licensure

To learn more about upcoming courses and customized training solutions offered through the Professional Skills Center, contact the Bryant & Stratton location nearest you, or visit our website: www.psctraining.com.
